## BELZONA GIVES A NEW LIFE TO A PAPER MILL PUMP

ID: 7650

Industry: Pulp & Paper Customer Location: Florida, USA
Application: CEP-Centrifugal Pumps Application Date: June 2017

Substrate: Cast Iron

Products: \* Belzona 1311 (Ceramic R-Metal),

\* Belzona 1321 (Ceramic S-Metal),

#### **Problem**

The interior of the pump metal was severely pitted and the efficiency was compromised. This pump was slated to be scrapped because it was in a bad shape. The replacement pump did not arrive in time so the decision was made to try to salvage this pump using Belzona.

### **Photograph Descriptions**

- \* 1. Pitting and degradation of the pump after it was blasted with Black Beauty. ,
- \* 2. Before the product application,
- \* 3. The metal rebuilt and coated ,
- \* 4. Two coats of Belzona 1321 applied over Belzona 1311.,

### **Application Situation**

An old pump at a paper mill plant.

# **Application Method**

Substrate was grit blasted with Black Beauty and then following the Manufacturer's Instructions for Use, a Belzona applicator was used to apply Belzona 1311 to rebuild and smooth out the damaged metal substrate. Belzona 1321 was then applied by a stiff bristle brush in two coats. The application was carried out in accordance with Belzona System Leaflets CEP-3 and CEP-5.

# **Belzona Facts**

This paper mill had used Belzona to preserve other pumps and chose Belzona to try to save this one.
