

BELZONA COATS YACHT'S WATER JET SYSTEM

ID: 7976

Industry: *Marine*
Application: *SOS-Ships and Offshore Structures*

Customer Location: *Tuscany, Italy*
Application Date: *March 2010*

Substrate: *Aluminium*
Products: ** Belzona 1341 (Supermetalgilde) ,*

Problem

As this was a newly constructed yacht, the customer wanted to line and protect the jets to prevent corrosion and erosion problems from occurring when the system was put in service.

Photograph Descriptions

- * 1. Water jets during the cleaning phase ,
- * 2. View after the first coat of Belzona 1341 ,
- * 3. View after the second coat of Belzona 1341 ,
- * 4. Finished application ,

Application Situation

Coating of the water jet propulsion system of a newly constructed yacht.

Application Method

Application was carried out in accordance with Belzona Know-How system leaflet SOS-02. The substrate was blasted to SA 2.5 cleanliness and cleaned with acetone. 2 coats of Belzona 1341 (Supermetalgilde) were then hand applied to coat the system.

Belzona Facts

The customer chose to use a Belzona coating as they were expecting both corrosion and erosion to be present when the jets were put into service, and this product is capable of dealing with both.
