

Turbine Restored and Protected with Belzona

ID: 8071

Industry: *Mining & Quarrying*
Application: *FBC-Fans, Blowers and Compressors*

Customer Location: *Portugal*
Application Date: *2015*

Substrate: *Steel*
Products: ** Belzona 1311 (Bearing Metal) ,*
** Belzona 1331 ,*

Problem

General erosion-corrosion on the turbine of a blower used as part of copper mining process. The erosion had caused a loss of material which could result in balancing issues.

Photograph Descriptions

- * 1. Overview of the blower ,
- * 2. Eroded-corrode turbine ,
- * 3. Belzona 1331 being applied to the turbine ,
- * 4. blower back in service ,

Application Situation

Repair of a turbine suffering from corrosion and erosion.

Application Method

Application carried out in accordance with Belzona Know-How System leaflet FBC-01 & FBC-02. The turbine was grit blasted down to SA 2.5 and then the lost structure was rebuilt with Belzona 1311. Finally 2 coats of Belzona 1331 was applied to prevent further corrosion-erosion.
