- * Five spheres coated with Belzona® 3211 thus far ,

Application Situation

Pressurized LNG storage spheres.

Application Method

Application carried out in accordance with the Belzona Know-How System Leaflet TCC-4.

Belzona Facts

There have been several trials with alternative products, however, Belzona® 3211 is so far the preferred option. Main reason for this is the first sphere coated with the system has given 11 years service thus far, with no requirement for renewal. So far five spheres coated and further spheres planned to be coated in 2009.
