

BELZONA WEATHERPOOFS POROUS STONework

ID: 944

Industry: Buildings & Structures
Application: WPA-Wall Problem Areas
Substrate: Sandstone
Products: * Belzona® 5122 (Clear Cladding Concentrate) ,

Customer Location: Private House, Manchester, England
Application Date: August 2007

Problem

House had been recently renovated and sand blasted externally. This process removed the wetherproofing properties of the stonework and as a result moisture was penetrating into the house.

Photograph Descriptions

- * View of property ,
- * Windows masked up and ready to go ,
- * Applying Belzona® 5122 with spray unit ,
- * Application close up ,

Application Situation

House constructed of stone.

Application Method

Application was carried out in accordance with Belzona Know-How System Leaflet WPA-8.

Belzona Facts

Customer did not want a sheen left on the building once coated. Material of choice also had to be microporous.
