

BELZONA PROTECTS ENGINE SUMPS AT OEM

ID: 965

Industry: General Industry
Application: TCC-Tanks and Chemical Containment Areas
Substrate: Fabricated Steel Sump
Products: Belzona® 5891 (HT Immersion Grade)

Customer Location: Engineering manufacturer, UK
Application Date: March 2008

Problem

Most of production based on sub-contracting out the work but sump fabricator did not have expertise to specify coating for engine sumps.

Photograph Descriptions

* Coating the difficult areas , * Inspection by mirror , * Good clean surface finish , * An indication of the access difficulties encountered ,

Application Situation

Company won Ministry of Defence contract to build 60 military vehicles. Coating required on engine sumps.

Application Method

Application carried out in accordance with Belzona Know-How System Leaflet TCC-5. Approved contractor with experience of Belzona coatings applied the system to the confined spaces in the sump.

Belzona Facts

Belzona coating was approved following independent tests carried out to confirm suitability for the environment. The Belzona coating was also capable of being applied successfully into recesses of the sump.
